Past performance is no guarantee of future results.

Current performance may be lower or higher than the quoted past performance, which cannot guarantee future results. Share price, principal value, yield and return will vary and you may have a gain or loss when you sell your shares. Separately managed accounts and related investment advisory services are provided by ArrowMark, a federally registered investment adviser.

¹The Russell 2500™ Growth Index measures the performances of the small and mid cap growth segment of the U.S. equity universe. It includes those Russell 2500 Index companies with higher price-to-book ratios and higher forecasted growth values.

²Performance is annualized.

³The inception date of the composite is 10/1/13.

Firm and Composite Information

ArrowMark Colorado Holdings, LLC (“ArrowMark”) is a Denver, Colorado-based investment adviser registered with the Securities and Exchange Commission under the Investment Advisors Act of 1940. ArrowMark manages multiple strategies and multiple investment vehicles. *ArrowMark Institutional* claims compliance with the Global Investment Performance Standards (GIPS®). ArrowMark Institutional is presented to investors as a separate entity under the Meridian Mutual Funds name or through the associated ArrowMark Institutional separate and sub-advised accounts. ArrowMark Institutional accounts are generally overseen by portfolio managers who are dedicated entirely to ArrowMark Institutional account management. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

The ArrowMark Small and Mid Cap Growth Composite seeks long-term growth of capital by investing primarily in a diversified portfolio of publicly traded common stocks of U.S. companies. Under normal circumstances, the Composite emphasizes small- and mid-capitalization growth companies that the Investment Adviser believes may have prospects for above-average growth in revenues and earnings because of many factors, including high sales growth, high unit growth, industry growth, high or improving returns on assets and equity and a strong balance sheet. These may include companies that are relatively small in terms of total assets, revenues and earnings. Accounts included are comprised of all actively managed long only equity accounts that are measured to the Russell 2500 Growth Index and invested using a fundamental research approach. These accounts invest primarily in small and mid-capitalization growth securities.

The ArrowMark Small and Mid Cap Growth Composite was created in May 2014. A complete list and description of firm composites is available upon request.

Separately managed accounts and related investment advisory services are provided by ArrowMark, a federally registered investment adviser. ArrowMark Partners is a trade name for ArrowMark Colorado Holdings, LLC, a registered investment adviser. ALPS Distributors, Inc., is not affiliated with ArrowMark.

Benchmark

The Russell 2500 Growth™ Index measures the performances of the small and mid cap growth segment of the U.S. equity universe. It includes those Russell 2500 Index companies with higher price-to-book ratios and higher forecasted growth values.

Performance Calculations

Valuations and returns are computed and stated in U.S. Dollars. Results reflect the reinvestment of dividends and other earnings. Gross-of-fees returns are presented before management and custodial fees, but after all trading expenses and withholding taxes. Net-of-fees returns are calculated using actual management fees that were paid and are presented before custodial fees but after management fees, all trading expenses, and withholding taxes.

The standard management fee for the ArrowMark Small and Mid Cap Growth Composite is 0.85% per annum on the first \$25 million USD, 0.80% on the next \$75 million and 0.70% over \$100 million. Additional information regarding ArrowMark’s fees is included in its Part II of Form ADV.

Internal dispersion is calculated using the asset-weighted standard deviation of all accounts included in the composite for the entire year; it is not presented for periods less than one year or when there were five or fewer portfolios in the composite for the entire year. The three-year annualized standard deviation measures the variability of the composite and the benchmark returns over the preceding 36-month period. The 3-year ex-post standard deviation is not presented because 36 month composite returns are not available.

Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.

ABOUT ARROWMARK PARTNERS

ArrowMark Colorado Holdings, LLC (“ArrowMark Partners”), is an employee-owned asset manager with specialized expertise in alternative fixed income and capacity-constrained equity strategies. Our unique approach, based on the team’s collective experience navigating market cycles, provides extensive insights across the capital structure and a skilled understanding of how to manage complex risk/reward tradeoffs through fundamental research.
